

Grow Schedule substrate

weeks	vegetative - in 6-7 liter pot				flowering - transplant into 15 liter pot									
	1	2	3	4	1	2	3	4	5	6	7	8	9	10

BASICS - for a simple and effective organic grow, give powders to substrate and water with clear water. If you have Guanokalong complete mix substrate/soil, then extra guano powder may be used during flowering.

GUANO POWDER	50g				60g		20g								OPTIONAL FLUSHING
FISH POWDER	20g				30g										
PALM TREE ASH					60g		20g								

SUPPLEMENTS - we recommend at least 3 waterings per week. For a more intensive grow, double the recommended dosage.

KALONG GROW	0.5 ml/L	0.5 ml/L	1 ml/L	2 ml/L	2 ml/L	1 ml/L	0.5 ml/L								OPTIONAL FLUSHING
KALONG BLOOM							0.5 ml/L	1 ml/L	1.5 ml/L	2 ml/L	2 ml/L	1 ml/L	0.5 ml/L		
BATBOOST	1 ml/L	1 ml/L	1 ml/L	1 ml/L	2 ml/L	2 ml/L	3 ml/L	4 ml/L	4 ml/L	4 ml/L	3 ml/L	2 ml/L	1 ml/L		

BOOSTERS - for a complete organic grow you may give varied dosages for overall stimulation.

SEAWEED POWDER	50g				60g		20g								OPTIONAL FLUSHING
BATBOOST	1 ml/L	1 ml/L	1 ml/L	1 ml/L	2 ml/L	2 ml/L	3 ml/L	4 ml/L	4 ml/L	4 ml/L	3 ml/L	2 ml/L	1 ml/L		

GROW SCHEDULE HYDRO AND COCO - use Guanokalong extract taste improver or BATBOOST next to your trusted feeding regime.
